Dear Sir:

I just received Whitewash IV in the mail and it was up to your excellent standard. You have done a great service by making the "Assassination Transcript" available to the general public. I wish you continued success in your battles with the Archives, and hope the Courts come to realize their true role in these proceedings....

I anxiously await publication of both Post-Mortem and Agent Oswald. I hope they will be available in the near future. Good Luck and thank you for your hard-work.

Sincerely,
Raymond E Ritchie
